# **Montana Health Care Programs Notice All Providers**

---

## **Payment Error Rate Measurement**

Beginning October 1, 2011, Montana Health Care Programs will be required to participate in the federal Office of Management and Budget (OMB) Payment Error Rate Measurement (PERM) program. This national program measures improper payment in Medicaid and HMK because OMB identified these two programs as being at risk for significant erroneous payments.

The Centers for Medicare and Medicaid Services (CMS) will use two national contractors to measure the accuracy of Montana Medicaid and HMK payments for services rendered to clients. Montana providers will work primarily with A+ Government Solutions, CMS's documentation and database contractor. A+ Government Solutions will collect medical policies from Montana Medicaid and HMK as well as either electronic or hard copy medical records from providers.

Medical records are needed to support required medical reviews to determine if claims were correctly paid. If a provider's ID number is identified on a claim as receiving payment, and that claim is selected as a sample for a service the provider rendered to either a Medicaid or HMK client, A+ Government Solutions will contact the provider for a copy of the required medical records.

A+ Government Solutions will verify the correct name and address information and determine whether the provider wants to receive the request by fax or mail. Once the request is received, the provider must submit the information electronically or in hard copy within 75 days. The provider who is identified on the claim as receiving payment will be responsible for ensuring that any and all supporting medical records, from all providers who rendered a service for which the claim payment under review was requested, are submitted in a timely manner. During this 75-day timeframe, A+ Government Solutions will follow up to ensure that the provider submits the documentation before the deadline.

Providing the requested medical records is required by the Social Security Act and is permissible by HIPAA.

It is very important that providers submit complete medical records in a timely manner to support evaluation of the accuracy of claims payments. No response or insufficient documentation will count against the State as an error, and result in a recovery of an overpayment from the provider. The Program Compliance Bureau at the Montana Department of Public Health and Human Services is available to help providers identify the required documentation for submission.

## **Contact Information**

If you have any questions about this provider notice, contact Steve Kranich at (406) 444-9356.

For claims questions or additional information, contact Provider Relations:
